Definitions

'Gross' is the rate of interest that's payable on this account and represents the amount of tax-free interest you'll earn per year.

'AER' means annual equivalent rate and is designed to make it easy for you to compare savings products. It tells you how much interest you'd earn if you put some money in an account and left it there for a full year. It takes account of things like how often the interest is paid and assumes any interest paid during that year is added to the balance and earns interest.
