

# Mortgage Broker List For Customers

Looking for a mortgage? First step is to chat to one of the brokers we work with to find the mortgage that's just perfect for you.

27 February 2018

# Our broker list

## Who are brokers and why do Atom use them?

Good question. First things first. At Atom bank we believe in straightforward banking that fits your needs, so we've chosen to offer mortgages through our panel of intermediaries, or as they are usually called, brokers.

Every one of you, our customers, are individuals, that's what we love about you. So the brokers that we work with are mortgage experts who search loads of different mortgages and advise you on what's the best fit for you and your needs.

You benefit because they give impartial advice, they won't give you one of our mortgages if it's not the best fit for you.

## So where do I find one of these brokers?

This document has all the brokers we're working with, so you can easily find one for you.

## Do they really offer impartial advice?

Yes. If, for any reason, our mortgage products don't meet your needs, or if there is another product out there which is better for you, the broker will let you know. They are regulated by the Financial Conduct Authority (FCA) and should always aim to act with your best interests in mind\*.

## I like the sound of this, how do I go about getting a mortgage with Atom bank?

If we do have the right mortgage product for you and you want to apply, the broker will send us an application on your behalf. If you meet the criteria, we'll pull out all the stops to get you a mortgage offer as soon as possible.

## This is exciting - what's next?

If you haven't already got it, [download our Atom bank app now](#). You'll be able to follow the progress of your mortgage application every step of the way – you even accept your mortgage offer in the app. Forget floundering with mountains of paperwork, we've streamlined it for you. Easy peasy.

## Remember, your mortgage can't complete without all applicants having access to the Atom bank app.

## You'll also need:

- Your own smart device – each applicant on the mortgage will need a compatible smartphone or device. [Have a look to see what devices work best with our app.](#)
- An email address and mobile phone number – each applicant will need to give their broker a unique email address and mobile number at Decision in Principle (DIP) stage. We get that when you're buying or remortgaging a home you'll have lots of exciting things to think about so we'll use these details to email or text you and give you a little nudge to go into your app at the key stages.

## Want to get started?

These are the brokers we work with. Give them a call, email or visit their website to discuss the best mortgage for you and your abode. If we're the right pick for you, we'll be ready and waiting on the other side of the app.

\*Atom bank is not responsible for the advice or assistance provided by a broker. The brokers we work with are separate companies and any decision to appoint a broker to act on your behalf must be made by you on the basis of your own enquiries. Please note brokers may also charge you a fee for their services.
